Health
Systems**

**With
Early Childhood
Systems**

The Colorado Early Childhood Comprehensive Systems: Health Integration Prenatal-to-three Project

The Colorado Early Childhood Comprehensive Systems: Health Integration Prenatal-to-three Project (CO-ECCS) is advancing the infrastructure, capacity, equity and sustainability of Colorado's maternal and early childhood systems of care to achieve the vision that **"All children are valued, healthy and thriving and have equal access to services, supports and resources"** in Colorado.

Aligning early childhood systems and health systems encourages life-long support and wellness for children and families. **We need healthcare partners and providers to help focus and prioritize health equity for the groups in Colorado that need it most.**

The voices and experiences of healthcare professionals across Colorado is key to the CO-ECCS Project's success. As central supports for children and their families during a critical time of development, having your input, in leadership or feedback, will make sure programs and services in healthcare and early childhood come together in a way that genuinely benefits the people they support.

The CO-ECCS Project is supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) as part of an award of the ECCS Program totaling \$255,600 with 0% financed with non-governmental sources. The contents are those of the author(s) and do not necessarily represent the official views of, nor an endorsement, by HRSA, HHS, or the U.S. Government. For more information, please visit HRSA.gov.

Collaborating Partners are Focused on Achieving Three Goals Over the Course of Five Years (2021-2026):

1
Increase the engagement of new stakeholders, such as families and health providers in the system of wrap-around supports for families during pregnancy through the first three years of a child's life.

2
Align early childhood and maternal child health systems to advance the sustainability of multi-generational preventive services and systems.

3
Advance health equity by creating an Early Childhood Equity Action Plan focused from the prenatal period through the first three years of a child's life.
